

Robert L. Cox, M.D.

Haven't there been times in your life when you looked back and wished you had known then what you know now? How would your life have been different if you had only seen what was coming . . . and then acted accordingly?

Insights into your biological future

Why do we need to hear this?

Dr. Robert Cox gives us all a chance to see our **biological future**, and then challenges us to decide how we will use this information.

The changes ahead not only impact *how long* we will live, but also force us to alter *the way* we will live. Our ethics, our financial planning and even our family structure will be forced to evolve. We can prepare for this evolution, or we can react to it once it is upon us, wishfully thinking, "If only I had known!"

"You fired up their imaginations"
— Acceler8 Technology

What biological progress?

- Radical longevity
- Genetic screening
- Designer babies
- Stem cells & Cloning
- Genetic modification of food
- Nanotechnology
- Pharmacogenomics
- Bioterrorism

Who is Dr. Robert Cox?

Dr. Cox is an award-winning and nationally recognized physician who practiced medicine for 22 years . . . helping one patient at a time. He now multiplies his impact by helping corporations and associations look ahead, one audience at a time! Going beyond his clinical experience, he has been honored as a businessman, as a leader and as a communicator. Dr. Cox is an **expert in biological progress**, and he knows where it will take us.

"We were so impressed with Dr. Cox that we asked him to join our board"
— A.C.E.

Dr. Cox focuses upon what biological progress will occur, but more importantly, upon what it will mean to you and your family!

BioForecasts

Insights into your biological future

Most Popular Programs

BioForecast: *Why biological advances will revolutionize your world!*

This dynamic overview program tracks biological progress from the past into the future, and shows how you will be directly affected. There is a personal price for this progress, as well as for postponing it. Which are you willing to pay?

Don't be an Ostrich: *Vaccinate your business against Avian flu!*

As Avian ("bird") flu evolves, we could experience the single most impactful biological event in human history to date! Every industry, profession and career will be affected...some positively, but most negatively! In this motivating presentation, Dr. Cox demonstrates "Why" you and your business need to take action, "What" needs to be done, and "When" you need to do it!

Will Your Clients Run Out of Money Before They Run Out of Time?

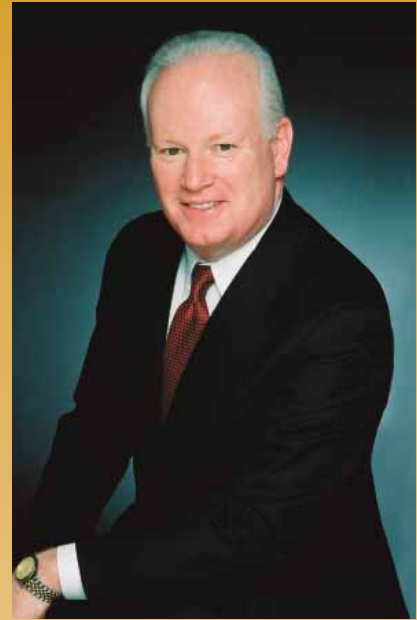

Biological developments will dramatically impact how the Financial Services Industry does business in the future. This program includes new strategies & perspectives needed to succeed in the coming era of Radical Longevity!

Can you Really Afford to Live to be 100?

Medical science is doing everything it can to extend your life, but there will be staggering economic consequences. In this fascinating program you will learn how your financial choices may ultimately become life and death decisions!

Can we Balance our Future Science with our Present Morality?

What will you do when cloning, genetic modification of food and designer babies are poised to affect the masses... for good or for bad? This unique program challenges you to explore your beliefs and to view morality from the perspective of the future.
